Bangladesh's Most Trusted Security Services Provider

31

Years protecting Bangladesh since 1995

64

Districts under active operational coverage

7,000+

Trained security personnel & CIT teams

ISO

9001:2015 certified quality management

Sentry Security Services Ltd. (SSSL) has been one of the leading security service providers in Bangladesh since 1995. Our foundation is a fast-growing reputation earned by satisfying clients through dedicated, well-organized management and rigorously trained security personnel.

Many retired armed-forces personnel and professionals from paramilitary forces form the core of our company, monitoring operations around the clock to ensure the smooth functioning of every deployment. Our field Inspectors and Supervisors are carefully selected from a panel of retired mid-level leaders of the armed and paramilitary forces.

Our security operations span all **64 districts of Bangladesh**, where roughly **7,000 highly trained personnel** and our Cash-In-Transit (CIT) teams carry the flag of SSSL. By 2005, SSSL had emerged as one of the largest and leading security service providers in the country.

Today, SSSL serves international and multinational companies, embassies, INGOs, UN bodies, large local corporates, and banking & financial institutions. In recent years we have adopted a consultative approach to client security — understanding the diverse, evolving requirements of each client and measuring the effectiveness of every solution we deliver.

OUR VISION

To be the largest, most professional security service provider in the industry — ensuring complete client satisfaction and building customer-centric partnerships, while valuing every member of our workforce.

PROFESSIONAL AFFILIATIONS

 Turnstile Barrier	 Fire Blanket	 GSM Alarm Panel	

MANPOWER + TECHNOLOGY

Every guard force we deploy is reinforced by access control, surveillance, screening and alarm systems — turnkey solutions specified, integrated and serviced under one accountable partner.

Why Leading Institutions Choose Sentry Security Services Ltd.

For 31 years, procurement teams, embassy security chiefs and corporate facility managers have trusted SSSL because we treat security as a managed discipline — not a headcount. Our consultative model proactively reaches out to stakeholders and measures the effectiveness of every requirement we serve.

<p>Retd. Defense Personnel</p> <p>Inspectors & supervisors drawn from retired armed & paramilitary leadership.</p>	<p>24 / 7</p> <p>Round-the-clock operations monitoring across the national network.</p>	<p>Consultative</p> <p>A partnership model that adapts to each client's evolving risk.</p>
---	--	---

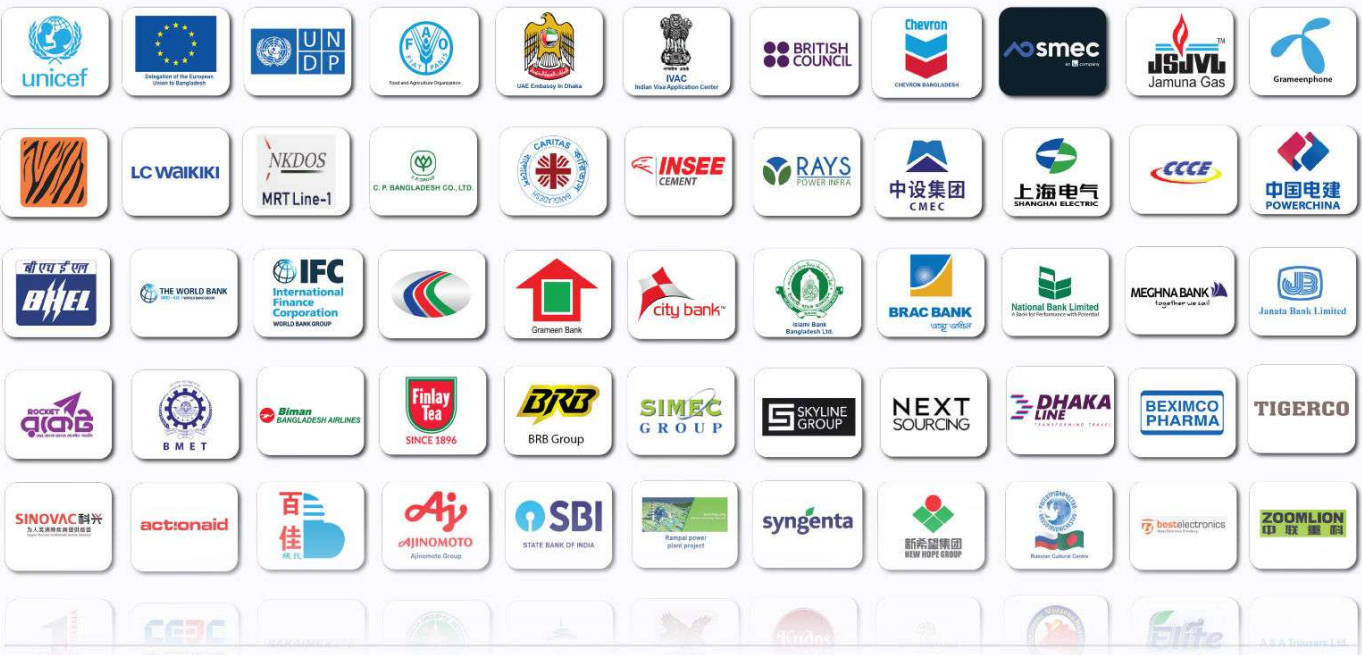

OUR ENGAGEMENT MODEL

From Risk to Resilience — in Four Disciplined Steps

<p>1</p> <p>Assess</p> <p>Threat, vulnerability and impact analysis tailored to each client's environment and risk profile.</p>	<p>2</p> <p>Design</p> <p>A security architecture combining trained manpower, technology and clear standard operating procedures.</p>	<p>3</p> <p>Deploy</p> <p>Vetted personnel and integrated systems mobilised under experienced ex-forces supervision.</p>	<p>4</p> <p>Sustain</p> <p>Round-the-clock monitoring, e-tracking, situational reporting and continuous performance review.</p>
---	---	--	---

OUR PROMISE

Complete client satisfaction through customer-centric partnership — while valuing every member of the team who carries the SSSL flag.
